Centurion Investments, Inc., d/b/a AVMATS Jet Support ("AJS") warrants, subject to the terms, conditions, and exclusions hereinafter set forth in this limited warranty ("Warranty"), that parts fabricated by AJS, and services delivered by AJS (collectively "Work"), are in accordance with the applicable Federal Aviation Regulations and applicable manufacturer's maintenance manual requirements, specifications, and mandatory service bulletins specified by the Return to Service/Maintenance Release Entry ("Entry") to be free from defects in workmanship and material, under normal use in the manner prescribed by the original equipment manufacturer for 250 aircraft flight hours, or a period of 365 calendar days from the date of the Entry, whichever occurs first. Any part, component, or accessory sold, repaired, overhauled, or serviced by an Original Equipment Manufacturer ("OEM") or other vendor shall be covered by the OEM or vendor's warranty, if offered.

LIMITED WARRANTY TERMS & CONDITIONS

- a. Customer must notify AJS by prompt written notice upon discovery of any alleged defect in the Work prior to expiration of the Warranty period.
- b. Warranty does not apply to latent defects undetected by the inspection method specified by the manufacturer's requirements, specifications, mandatory service bulletins, airworthiness directives or other inspection criteria as of the Entry date. Due to the natural deterioration of the aircraft due to the passage of time, aircraft operation, and storage conditions beyond AJS control, inspected areas and items may exceed limits and become unserviceable at any time subsequent to completion of the inspection. As a result, the inspection and its results are only warranted as of the date of the Entry;
- c. Customer must return the Work to AJS for Warranty consideration. Customer shall be responsible for all removal, reinstallation, transportation charges to and from AJS facilities. All part(s) or components Customer is instructed to return to AJS must be accompanied by copies of all appropriate paperwork, i.e. 8130's, installation/removal log entry, etc.;
- d. Warranty does not apply if Work has not been maintained and operated by Customer or Customer's agent(s) in accordance with the approved maintenance program, manufacturer's recommendations, Pilots Operating Handbook, Flight Manual or manuals, mandatory service bulletins, and airworthiness directives;
- e. Warranty does not apply if the Work alleged to be defective has been repaired or altered by any firm or entity other than AJS or an authorized agent of AJS;
- f. Warranty does not apply if the Work has been subjected to misuse, neglect, accident, fire or other damage;
- g. Work eligible for warranty claim shall be repaired or replaced at the sole discretion of AJS;
- h. Work repaired or replaced in a repair under this Warranty shall not extend the original Warranty period set forth above;
- i. AJS will only honor replacement parts with an identical part by the same manufacturer or, at AJS discretion, an equivalent approved part as generally sold by AJS having the same form, fit and function;
- j. AJS shall prorate the Warranty on all TBO, Life Limited, and Wear Limited Items
- k. On all electrical items, Warranty covers only the items repaired or replaced by AJS.
- l. This Warranty extends only to AJS Customer.
- m. For paint services AJS shall use the Customer specified or supplied paint finish color for either refinishing less than complete replacement (touch-up) or complete replacement of the base finish coat (Base), or color(s) used in contrast to the Base (Accents). However, due to age, fading, environmental, and other operational exposures to the Base and Accent(s) over time, and irregularities in coloration, consistency, and batch differences of the paint finish used for the touch-up or replacement of the Base or Accent(s), AJS does not guarantee that any touch-up or replacement of the Base or Accent(s) will match the previous Base or Accent(s) on the aircraft.
- n. Warranty does not apply to Customer supplied part(s) or component(s), or any damage resulting from the malfunction or failure of Customer supplied part(s), or component(s).
